### DISINFECTING LEPERS' MAIL.

How Letters from the Molokai Settlement, Hawaii, Are Treated.

By Exclusive Wire from The Associated Press, Washington, Nov. 6 .- Marine hospital Surgeon Carmichael, at Honolulu. Hawaii, in a report to Surgeon General Wyman on the disinfection of realls from the leper settlement on the island of Molokai, says a reasonably safe plan has been adopted to avoid the delay incident to sending the mall to the quarantine station.

All mail from the leper settlement will be disinfected with sulphus dioxide at the settlement and then transterred directly to the steamship and received aboard in clean and disinfected sacks furnished by the postoffice authorities. At Honolulu the mail will be taken in the sacks directly to a room in the postoffice used for disinfection purposes and disinfected with formaldehyde with out removal from

All letters are perforated or the corners clipped at the settlement before disinfection. No case of leprosy, the surgeon reports, has yet been discovered among the postoffice employes, although non-disinfected mail from the leper settlement has been handled by them for many years.

A Real Treat.

"The Wild Man of Borneo is sick," said the

PROSPERITY SHOWN BY CENSUS 245,000 More Manufactories in Uni-

ted States Than in 1890. By Exclusive Wire from The Associated Press. Chicago, Nov. 5 .- Ex-Governor Wm. P. Merriam of Minnesota, director of the United States census, spent several hours in Chicago en route from Washington to his home in St. Paul, where he went to vote. In discussing

the consus, he said: "The large figures shown by the recent census of this country are a big and pleasant surprise to me. None of us at the bureau had expected a larger total than 75,000,000, but, much to our surprise and gratification, it has exceeded that number by more than 1,-

"We reckoned that the decreased immigration for the last decade must work a decrease in the percentage of gain for the decade, as compared with the decade preceding. Between 1880 and 1890 a vast immigration flowed into our country. The tide was much diminished. It was supposed, during

the last ten years. "Congress, when it meets in December, will have the results to hand upon which to base the new apportionment of seats in the lower house, The whole result will not be pub-lished until January, and indeed I see a good year's work before us.

"The number of farms in the United States proves to be about 5.800,060. When complete the census will show

facts about each farm. "In 1890 there were some 355,000 nanufacturing institutions in the United States. Now, in round numbers, there are about 600,000. The increase in the number of plants will be shown to be very great in the west. The south also has added to ts manufactures. Whether the increase in the west and south is additional to or at the expense of the manufactories of the east. I do not vet know."

### **BIG FIRE AT ALBANY.**

Office of the Press and Knickerbocker and a Candy Factory Burned-Loss \$500,000.

By Exclusive Wire from The Associated Press. Albany, N. Y., Nov. 6 .- Fire broke out tonight at Kreischer's large candy factory and communicated to the Press and Knickerbocker buildings. Both

buildings were destroyed. At this hour it is estimated that the loss will probably be half a million dollars.

## HIS LAST VOTE.

New York Merchant Expires Soon After Casting His Ballot.

# **WORK MISSION** IS PERFORMING

ANNUAL MEETING WAS HELD YESTERDAY.

Report of the President, Mrs. J. L. Crawford, Set Forth the Plan the Mission Has for Winning Erring Women Back to a Good Life-Success That Has Been Met with in This Work-Officers That Were Elected for the Year-Report of Finances Presented by Treasurer.

The annual meeting of the Florence Mission was held yesterday afternoon with a large attendance present. The reports were very encouraging and a lively degree of interest was manifested. During the past few months a change has been made in the assistant matron. Miss Thomas having resigned to be succeeded by Miss Catlin, another most capable worker, who has been engaged in the Midnight

mission of London. Mrs. J. L. Crawford, the president, gave an admirable report, a portion of which is here appended:

Seventeen years ago in New York city Charles N. Crittenton, the founder of the missions that bear his name, opened up the first home for fallen and unfortunate girls and women, since that time homes or missions have been located in every state in the Union and its great work widened to such an extent that many omes of this same character and under pervision of our national officers have been lo cated in foreign lands and but a few days ago it was my privilege to read a report from Tokio,

The report of Kate Waller Barrett, our general superintendent of national work, tells us that we have in our homes every day in the year an average number of more than 3,000 girls and 600 babies, yet we may say that the work is just begon for we cannot but admit that the work has not appealed to the sympathy of the hearts of the great mass of society and has in a measure been unpopular, and how often our hearts have been grieved as we have heard it said that these girls should know better and not make the mistakes that have fallen their lot.

HAVE NOT CONSIDERED. Our dear friends have failed to take into con sideration the circumstances that have caused them to fall, for we cannot but realize that there are some extenuating circumstances and as ough the Scriptures have been verified and the injouities of the parents visited upon the children to the third and fourth generations and in many of the cases we do not have to trace

even this far back in their line of ancestors for it is a sad but true fact that many of these girls have never known a better life but of course there are exceptions and some of them have bad surroundings that sould have tended to a better condition but still they have in an evil hour and under the power of the tempter fallen, and when this sad moment in their lives come, society has a tendency to shun them and give them
no opportunity to redeem themselves but at
once rises up and condernus, oftlines not even
giving them a chance to carn an honest living.
To be sure we feel that an evil life is to be condemned but still when a desire is shown or expressed to reform they should certainly be encouraged and helped and this I believe is the great thought and object of our home, girls are only admitted when they have a desire to lead a better life and come to use of their own free will and if they remain with us it is because they desire to do so and not because they are compelled. When in our home everything pos-sible is done with the aim of helping them to that betetr and nobler life that is intended for womanhood, and their surroundings is made for them as much like a Christian home as love and Christian zeal can make it, our doors are always open and yet few if any of the girls ever leave, even after they have been used to a life are taught in our home is to obey and this is one of the things that has apparently in most cases been entirely foreign to them heretofore

During the year we have done what we had ong contemplated, inserted a new clause in our ules, to the effect that no girls shall be acmitted in the home under a certain age for a shorter period than two years and over that ago period less than one year, heretofore ou ule was they should remain three mentus.

We did not think this was long enough to es tablish them in tehir new way of living but merely to start them as it has always seemed our limited means would not permit us to keep them for a longer period and with this rule did all that was in our power for them for that length of time and then sought and endeavored many cases they were so ignorant of right living that in the majority of cases they made not poor domestics, and with our new rule alowing them to remain within our doors for a longer period we feel that with the course of training they will now be enabled to leave the rome with a better chance of making their lives of success, to be sure this regulation means an increased expense to the home, but we have bright hopes that we will be able to have some kind of werk done in the home that will be a aree of income and that will be in a measure t least self-supporting, but in order to carry out this plan means that we will necessarily have to obtain funds to equip the home with the proper means to begin this work, but we bewe with a little more individual effort and sard work we will be able to move torward and

Mrs. W. T. Hackett, treasurer of the building fund, presented a report to the effect that \$246 had been raised toward he building fund, the debt at present being \$950.

Mrs. Thomas, the efficient matcon, gave a most interesting report. During the year, thirty-seven inmates have been sheltered. Of this number four have married and five have united with churches. Three of the fourteen-yearold girls have been adopted or taken permanently into homes.

Among the incidents related was that of one who had come to the missiona woman of culture, who had made music a life work. Immediately she began to train the other members of the family, and so great was her success that a most creditable entertain ment was given by the young women and girls. This person and her child of ten have since united with a church o Scranton, and now have re-joined the husband and father in a far-away city, where all are living happily.

OFFICERS ELECTED. Miss Jennie Reynolds, the secretary, gave an interesting report of the work of the managing board during the year, after which the following officers were elected: Honorary president, Mrs. Thomas Dickson; president, Mrs. J. L. Crawford; first vice-president, Mrs. W. H. Sadler; second vice-president, Mrs. A. D. Stelle; secretary, Miss Jennie Reynolds; treasurer, Mrs. Arja Williams; corresponding secretary, Mrs. G. E. Dean; chairman of membership committee, Mrs. J. W. Howarth; directors, to serve three years, Mrs. W. S. Diehl, Mrs. R. G. Brooks, Mrs. W. H. Taylor, Miss A. K. Sanderson and Mrs.

# O. & W. BUYS MT. PLEASANT

ANOTHER BIG COLLIERY ADDED TO ITS COAL DEPARTMENT.

It Now Takes the Total Tonnage from Twelve Collieries, Part of the Tonnage from Two Others, and Is Reaching Out for the Control of Several More-In a Very Few Years It Has Become an Important Factor in the Lackawanna Coal Business.

The Mt. Pleasant Coal company is now affiliated with the coal department of the Ontario and Western. The negotiations which have been on for some weeks are now consummatel and another valuable colliery has been added to the list of those sending their coal over that road.

It was only a few years ago the Proposition of City Ownership Car-Ontario and Western began reaching out for coal carrying business, but it went at work with a vim and to-The long mooted question of Carbonday is doing a very considerable share of this trade. It takes the total dale assuming ownership and control of tonnage from twelve of the best colits water supply was put to vote yeslieries of the valley and a goodly part of the output of two other mines,

terday and it carried overwhelmingly. The collieries which contribute their Fourteen out of sixteen districts show total tonnage to the Ontario and Western, and which are practically 1,292 votes on the question, with 1,025 controlled by it are the Pine Brook, majority in the affirmative. The under-Capouse and Mt. Pleasant, West Ridge and Clark Tunnel, of Scranton; Redtaking means \$145,000 increased city inmond No. 3, at the northern extremity of the city; the old Jermyn No. 4 of the Johnson Coal company, at Priceburg: the Ontario and Blue Ridge, at TOAD STOOLS CAUSED Blakely; the Riverside and Raymond at Peckville, and the Richmond No. 4. JOE TURKON'S DEATH at Richmondale. The Northwest colliery of the Temple Iron company, and the Mt. Jessup colliery of the Mt. Throop Miner Dies as Result of Eat-Jessup Coal company also deliver to it a large portion of their output. It is estimated that the company now ing Poisonous Fungi, Believing

handles over 2,000,000 tons a year of the coal mined in Leckawanna valley.

AT MT. PLEASANT. The Mt. Pleasant will continue to operated nominally by the Mt. Pleasant Coal company, but eventually may be grafted with the Capouse and Pine Brook in the Scranton Coal company, which, with the New York and Scranton Coal company and the Elk Hill Coal and Iron company, constitute the mining department of the

Ontario and Western. Three large washeries will also soon contribute their product to the Ontario and Western. These are the .Mt Pleasant, just completed; the Capouse, which is nearing completion, and the Carbon, which has been in operation for some time and shipping on the

Ontario and Western. Dr. Jacobs was summoned and Mrs. At present the Mt. Pleasant product Turkon and the children were relieved and soon felt no ill effects from the meal. Turkon however, grew speedily more and more sick, and about 10 but just how this will be done is not Coroner Roberts yesterday peryet known. The Mt. Pleasant comformed an autopsy on the remains of pany, some time ago, wanted to divert Turkon, and will to-day examine the a part of its shipments to the Ontario contents of his stomach to ascertain and Western, but was estopped by an the actual causes of the man's death. injunction issued at the instance of He has not yet decided whether he the Delaware, Lackawanna and Westwill hold an inquest. Turkon was 45 ern, restraining it from erecting conyears of age and is survived by a wife veyors from its breaker across the Lackawanna's tracks to the feed on the easterly side, where it was intended to erect pockets from which cars brought up on a branch of the Ontario and Western could be filled. An Susquehanna, Nov. 5.-Burglars on Saturday evening entered the general store of Buckley appeal was taken from the injunction order and it is pending in the su-Brothers, at Lanesbore, and carried away goods preme court.

TO SHIP COAL.

Should the injunction be continued. the Ontario and Western, could still secure the Mt. Pleasant output without suffering any other road to share in the carrying traffic, by taking the coal underground to either the Pine Prook or Capouse collieries.

It is understood the Ontario and Western is still reaching out for more contributing collieries and that the Dolph and Pancoast are among those for which it is negotiating.

Many thousands of dollars have been spent by the company in expanding its coal business, and it appears to be perfectly willing and anxious to expend thousands more if it can secure desirable properties,

### Velocity of Light and Sound. From the St. Louis Republic.

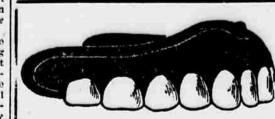

It has been calculated that the deepest note sound is produced by sixteen vibrations in : second, the acutest by 48,000. The extremes of color are red and violet. The former is given by 458,000,000 or vibrations per second, the latter by 727,000,000,000. In this way the rela tive velocities of light and sound are compare
